Insolvency - Book Debt Collection Service

For more than 35 years LPL has offered this service to many well known Insolvency Practitioners in the UK who have benefited from our successful recovery services.

LPL provides a professional and bespoke service to the Insolvency Practitioner in which we comprehensively handle the collection of book debts owed to companies who have been placed into Liquidation, Administration, Company Voluntary Arrangement or any Individual who has been made Bankrupt or is subject to an Individual Voluntary Arrangement.

Book Debt recovery is a specialist subject and requires a professional approach in the manner in which each individual account is handled. In some cases where the claim is disputed it requires experienced operatives to recognise the problems and negotiate an acceptable settlement.

In respect of cases passed to the Insolvency Practitioner by factoring or invoice discounting companies, LPL will ensure that all documentation and records received in support of debt collection will be safely stored and returned to the Insolvency Practitioner once the case is completed.

Regular reports are available to the Insolvency Practitioner's case handlers and realisations are held a separate client account. All cleared

funds are remitted to the client on a regular basis or in accordance with their particular instructions.

Meetings can be arranged with former directors or ex-accounting staff to resolve queries and disputes whether the company continues to trade or has been closed down.

Should it be necessary to commence legal proceedings, LPL's solicitors are well versed in the area of litigation and will speedily arrange to issue through the County or High Court for the recovery of debts. Alternatively our Insolvency client may choose to use their own solicitor for this purpose. LPL will liaise with them and provide all pre sue reports.

The service is offered on a *No Recovery - No Fee* charging basis. LPL's collection fees are competitive and are based on the complexity, age of the debts.
